

SITE MENU

1 Zooming. The zoom buttons allow you to increase or decrease the size of the MAP.

2 Search my location. When pressed, it determines my current position on the map. The location is displayed as a blue dot, around which the coordinates accuracy zone is also displayed. In case of displaying on a mobile device, a direction arrow is also displayed.

3 Work calendar. When pressed, a calendar is displayed in which you can select a date and obtain information on the volume of work.

4 Settings. When clicked, the site settings panel is displayed.

5 Conventional designations. When pressed, the legend on the map is displayed.

6 Information by date. Displays the day of the week and date. When pressed, information about the date selected in the calendar is displayed.

7 Scale ruler. Displays a dynamically changing ruler. Depending on the scale, the display changes to meters (m), kilometers (km).

8 Map layers. Hovering/clicking reveals layers on the map.
